**Doran to demonstrate TPMS integrations with telematics providers at TMC's  
Transportation Technology Exhibit**

Cincinnati, Ohio - Doran Manufacturing is pleased to announce that they will be demonstrating completed Doran 360™ TPMS integration projects with telematics providers at ATA's Technology and Maintenance Council Transportation Technology Exhibit in Nashville, Tennessee from March 10<sup>th</sup>-12<sup>th</sup>.

Members of Doran's sales team will be on hand (booth #1613) to meet with representatives from fleets to provide information about Doran's tire pressure monitoring systems and demonstrate the completed integration projects with a number of telematics providers.

"The demand for integrating Doran's tire pressure monitoring systems with telematics providers has significantly picked up over the past year." said Jim Samocki – General Manager. "We've been working on a number of technological advancement projects and have completed integrations with Omnitracs, PeopleNet and SafetyTrax which will be available for demonstration in our booth at TMC."

Omnitracs MCP200

SafetyTrax  
TPMS Web Portal

In addition to the visual and audible alerts available in the cab for the driver, fleets can now have access to tire pressure data and alarms through the web portals provided by Omnitracs, PeopleNet and SafetyTrax and other providers. The access to this information can help fleets to manage and reduce their tire related repair and maintenance costs.

About Doran Manufacturing, LLC: Cincinnati-based Doran Manufacturing has been creating customized solutions for more than 60 years, including providing high-quality transportation safety products since the early 1970s. In addition to tire pressure monitoring systems, the company supplies LED and incandescent Exterior Light Monitors, Sleeping Child Check® monitors, Emergency Exit Monitors and a full range of LED lighting products to the school bus market. Also, the company continues to manufacture customized electric terminals and terminal boards in the original factory that was established in 1953.
