Doran to Demonstrate the 360HD and 360SL Tire Pressure Monitoring Systems in Booth#1616 at the TMC Transportation Technology Exhibition in Orlando, FL

Cincinnati, OH – Doran Manufacturing, LLC will display and demonstrate the company's family of Doran 360™ tire pressure monitoring systems designed for truck and trailer fleets in booth #1616 at the TMC Transportation Technology Exhibition from February 9th – 11th in Orlando, Florida.

Members of Doran's sales team will meet with representatives from truck and trailer fleets, demonstrate the products, and discuss some of the success stories that have resulted from the implementation of the Doran 360™ tire pressure monitoring systems.

"We have been very pleased with the addition of the Doran 360 SmartLink™ system to our already field-tested and proven Doran 360HD™ product line," said Jim Samocki – General Manager. "The SmartLink™ technology provides fleets with the option to monitor tires for the truck, tractor, and/or tractor and trailer tires in any operational environment, including drop and hook. Most importantly, our customers are discovering that their repair and maintenance costs for tires can quickly be reduced with the installation of our systems."

In addition to the product overviews, the representatives will be able to discuss the leasing options available from the recently announced agreement with United Leasing Associates to provide financing options that can provide a solution to gaining the economic benefit of the system and paying for it over a period of time.

Cincinnati based Doran Manufacturing has been providing transportation safety products for commercial trucks, RVs and school buses for over 35 years. In addition to tire pressure monitoring systems, the company supplies Exterior Light Monitors, Sleeping Child Check® Monitors, Emergency Exit Monitors and a full range of LED lighting products.

For more information on the Doran 360™ tire pressure monitoring systems, visit www.doranmfg.com or contact them directly via e-mail at nau_chris@doranmfg.com, call toll-free (866) 816-SAFE (7233) or write to Doran Manufacturing, 2851 Massachusetts Avenue, Cincinnati, Ohio 45225.
