## Doran and SafetyTrax integration provides a dynamic website to help fleets reduce tire repair and maintenance costs

Cincinnati, Ohio – Doran is pleased to announce that they have successfully completed a collaborative integration project with SafetyTrax™ AVL to provide fleets with a dynamic web-based software application that provides real-time updates for global position and vehicle tracking indicators along with tire pressures and temperatures for every vehicle in a fleet. The integrated system will be on display and available for demonstration at the Technology and Maintenance Council's Annual Meeting in Tampa, Florida at Doran booth (#1041).

“Due to technological advancements, the need for fleet to rely upon time consuming, inconsistent and inaccurate gauging or thumping tires to check tire pressures are a thing of the past.” says Doran’s General Manager, Jim Samocki. “The integration between Doran and SafetyTrax, provides a customized, fleet-specific website that offers at-a-glance functionality to view the current GPS location, speed and tire pressures/temperatures in real-time for any vehicle in a fleet.”

In addition to the “live look-in” map view, the system also has the capability to send e-mails or text messages with tire pressure alerts to provide additional visibility and minimize the dependence upon drivers to address low tire pressure warnings.

There is also a TPMS current status report that can be scheduled to run daily, weekly or monthly which will show every current tire pressure and highlight specific tires with low pressures.

Report: TPMS Current Status					
Start Date-Time: 1/18/2012 12:00 AM		Group: All Groups		Vehicle: All Vehicles	
End Date-Time: 1/18/2012 11:59 PM		Driver: All Drivers			
Tire Position	Pressure	Temperature	Last Update	Status	
<b>Vehicle:</b> Truck #105 <b>Driver:</b> Jim Phillips <b>Last Address:</b> 2145 Camden Rd., Holly Hill, SC 29059 USA					
2	99.4 PSI	50.8 F	1/18/2012 4:53 PM	Normal	●
3	101.8 PSI	51.8 F	1/18/2012 4:53 PM	Normal	●
9	101.8 PSI	50.2 F	1/18/2012 4:53 PM	Normal	●
10	98.6 PSI	51.8 F	1/18/2012 4:53 PM	Normal	●
11	112.1 PSI	58.6 F	1/18/2012 4:53 PM	Normal	●
12	89.2 PSI	57.4 F	1/18/2012 4:53 PM	Fast Leak	●
15	103.4 PSI	56.8 F	1/18/2012 4:53 PM	Normal	●

34	109.2 PSI	53.8 F	1/18/2012 4:53 PM	Normal	●
35	108.8 PSI	52.6 F	1/18/2012 4:53 PM	Normal	●
36	110.0 PSI	51.8 F	1/18/2012 4:53 PM	Normal	●
Tire Position	Pressure	Temperature	Last Update	Status	
<b>Vehicle:</b> Truck #108 <b>Driver:</b> Drew Simmons <b>Last Address:</b> 867 Boyer Rd, Holly Hill SC 29059 USA					
2	99.8 PSI	50.8 F	1/18/2012 4:48 PM	Normal	●
3	101.8 PSI	51.8 F	1/18/2012 4:48 PM	Normal	●
9	110.8 PSI	50.2 F	1/18/2012 4:48 PM	Normal	●
10	106.6 PSI	51.8 F	1/18/2012 4:48 PM	Normal	●

In addition to TPMS information, the SafetyTrax website also provides a “dashboard” that shows daily mileage, number of stops, engine on/off, idle time, speeding events and average speed for every vehicle in the fleet. It provides a bread-crumbs history of events and can also setup to track customizable geo-fence landmark activity, speeding and after-hours use.

The Doran 360™ tire pressure monitoring systems are designed for fleets of all sizes and equipment configurations, including drop and hook operations. Installation can be accomplished, without any special tools, in less than an hour. The high-impact nylon, valve-stem mounted sensors, with potting material inside, have passed rigorous SAE tests by an independent a2La accredited testing facility to ensure that they deliver the longest life and corrosion resistance on the market.

About Doran Manufacturing, LLC:

Cincinnati-based Doran Manufacturing has been supplying high quality transportation safety products more than 35 years. In addition to tire pressure monitoring systems, the company supplies LED and incandescent Exterior Light Monitors, Sleeping Child Checks®, Emergency Exit Monitors and a full range of LED lighting products to the school bus market. Also, the company continues to manufacture customized electric terminals and terminal boards in the original factory that was established in 1954. For more information on the Doran 360™ tire pressure monitoring systems, visit [www.doranmfg.com](http://www.doranmfg.com) or contact them via e-mail at [samocki\\_jim@doranmfg.com](mailto:samocki_jim@doranmfg.com), write to Doran Manufacturing, 2851 Massachusetts Avenue, Cincinnati, Ohio 45225 or call toll-free 866-816-7233.

About Safety Vision, LLC

Serving transit, police, school bus, and other public and private sector fleets since 1993, Safety Vision provides comprehensive mobile video solutions that enhance visibility, improve safety, protect assets, and reduce liability. Systems include onboard surveillance and collision avoidance camera systems. Components include mobile digital video recorders (MDVRs); rear-, side-, and forward-view interior and exterior cameras featuring infrared technology; video-viewing and -sharing software; and in-cab monitors. Advanced surveillance system technology enables the secure capture, automated wireless download, and simplified backend management of video, audio, and other evidentiary data.
