**Doran to display and demonstrate safety products at UMA Motorcoach Expo**

Cincinnati, Ohio - Doran Manufacturing is pleased to announce that they will be displaying and demonstrating safety products at the United Motorcoach Association's Motorcoach Expo 2015 (Booth #72) from January 18<sup>th</sup> - 22<sup>nd</sup> in New Orleans, Louisiana.

"The ongoing interest in passenger safety for the motorcoach industry makes the Motorcoach Expo a natural fit to present Doran's products." said Jim Samocki (General Manager – Doran Manufacturing). "By installing the Doran 360™ tire pressure monitoring systems to avoid catastrophic tire failures and maximize tire life or using the MN8 FoxFire advanced photoluminescent technology safety products to light the way to safety, motorcoach operators and fleets can improve the overall safety for passengers riding in their vehicles."

The technological enhancements in tire pressure monitoring systems will provide real-time low tire pressure alerts to the driver and can be transmitted off the vehicle to key personnel at the motorcoach company through the integrations with telematics providers. In addition, the implementation of MN8 FoxFire's Advanced Photoluminescent Technology® safety products will provide visible routes to the exits in the dark, when it is needed the most.

**About Doran Manufacturing, LLC:** Cincinnati-based Doran Manufacturing has been creating solutions for 60 years including providing quality transportation safety since the early 1970s. In addition to tire pressure monitoring systems, the company supplies LED and incandescent Exterior Light Monitors, Sleeping Child Check® monitors, Emergency Exit Monitors and a full range of LED lighting products to the school bus market. Also, the company continues to manufacture customized electric terminals and terminal boards in the original factory that was established in 1953.
